British Garden Centre are helping children's charity Greenfingers Exhibit at the 2022 RHS Chelsea Flower Show

Greenfingers and the British Garden Centres Group have announced that they will be attending the RHS Chelsea Flower Show as Exhibitors. The show will be running from May 24th-28th and is always set to attract thousands of visitors including the Royal Family.

British Garden Centres have 61 centres in the UK, recently launching the 61st in Hatton, Warwick. The group has always supported Greenfingers and fundraised money for them through events such as Garden Re-Leaf Day. It's great to see this business getting involved in the national event.

Boyd Douglas-Davies, Director at British Garden Centres said: "We are so pleased we are able to support Greenfingers by enabling them to have a presence at RHS Chelsea this year. The event is the perfect place to shout from the rooftops regarding the work the charity undertakes, with an attending audience that is already engaged with the mental and physical benefits of gardening. We've no doubt that the show will see legions of new supporters inspired by the work of the charity and in turn dig deep to support it".

Sue Allen, Chairman at the Greenfingers charity added: "Our sincerest thanks to British Garden Centres for their support in helping us gain a presence at RHS Chelsea. We are looking forward to getting on-site and start telling all the wonderful visitors more about the work we do and hope that many of them will consider making Greenfingers their charity of choice".

Their exhibit will be located on Eastern Avenue (stand EA453), which is the thriving shopping and information hub of the show. Greenfingers and the British Garden Centres teams are hoping to spread the word and encourage more people to get involved and support the charity.

Greenfingers is a national charity dedicated to supporting life-limited children and their families who spend time in hospices around the UK. The charity is committed to creating, beautiful, well-designed outdoor spaces for children to enjoy with family, friends, and siblings, whether through play and fun, or therapeutic rest and relaxation. To date, Greenfingers Charity has created over 60 inspiring gardens in children's hospices around the country and has a further waiting list of hospices that need help.
